

Discover the power of speech

with new professional answering options from Clarity®.

Introducing Professional Voice Packages from Clarity®

A professional voice on your phone system, can make the difference between a customer leaving a message...and just leaving. And, now, getting that professional sound for your own business is as easy as calling **800.786.6160** and asking your dedicated Account Manager for a no-obligation quote.

Four ways you can use a professional announcer to improve your customer's experience:

1. Greetings

Nothing makes a good first impression, like an impressive professional voice answering your customers' calls.

2. On-Hold Messages

There is no better time to offer your customers information or promotional messages than when they are On-Hold or waiting to be transferred.

3. Voice Prompts

Press 1, if you want more professional sounding voice prompts.

4. Announcements

Why give out your address and hours again and again, when you can just record them as part of your phone management system?

Setting up a professional voice on your phone system is as easy as 1, 2, 3

1. Pick your package

Call your dedicated Account Manager at **800.786.6160**. They will review your needs and explain your options. After you pick a Professional Voice Package, you'll be contacted by our technical experts who will handle the writing and recording of your message or messages.

2. Choose your words

Our technical people will work with you to determine the perfect phrasing for your Greeting, On-Hold Message, Voice Prompt tree, or Announcement. They may work with you on all four depending on what package you choose. Your message or messages will be tailored to your unique needs. And you will have final approval of any messages installed on your system.

3. Sit back and relax

Once you've approved your scripts, we'll do the rest. We'll record your message or messages using a professional voice talent and then install them onto your phone system. You'll never have to worry about the technical details. We'll take care of the hard stuff for you.

Before you can sound better to the people who call you, you need to call us.

To get a quote, call your dedicated Clarity Account Manager at **800.786.6160**. Remember, good word of mouth for your business starts with a professional voice on your phone system.
