

RELIABLE CLOUD-BASED
COMMUNICATION SYSTEM

EVERYTHING YOU NEED
PLUS FULL FAILOVER
PROTECTION TOO!

Now We're Talking!

PHONE SERVICE DESIGNED TO MEET THE NEEDS
OF THE BUSIEST **PIZZERIA** OPERATIONS

PizzaPhones
powered by **Clarity**

FEATURES DESIGNED TO IMPROVE SALES

Never a Busy Signal

Your business buzzes for lunch and dinner on those unique "big game days" or "hopping holidays", but your phone should never buzz busy. PizzaPhones® gives you unlimited lines to ensure callers never get a busy signal.

In-Ring Messaging Drives Upsells

Increase your average order by 20% promoting weekly/monthly specials before you even answer the phone. Add short messages before orders: "Thanks for calling Tony's Pizza. Add a salad today for only \$.99!"

Call Routing & Messaging

Do you have lunch or dinner specials? Do you take office catering orders? PizzaPhones® can change your messaging by time-of-day or day-of-week.

Hard to Beat Call Handling

Handle an unlimited number of callers: park them on hold and pick them up from the front/back of the store. Offer a call back instead of holding or add special ring tones to distinguish customers from delivery drivers.

HD Voice with Acoustic Fencing

Keep customer conversations free from extraneous noises/distractions by dramatically improving the most important component of your call - voice clarity. No more struggling to hear over kitchen noise or counter chatter.

Call Recording

A standard feature. Listen to random calls for quality assurance or find a customer's call if they complain about staff or an incorrect order.

FEATURES

Clarity Voice® replaces old phone company service with advanced VoIP communications. All the service of traditional phone lines - but modernized with the latest call handling features.

We customize our service to fit the specific needs of **YOUR** business.

QUALITY PHONES & ACCESSORIES TOO

Only the best quality and most advanced phones and accessories are sold. No straining to hear your customer or risking your business with an unprofessional customer experience.

Real Time Historical Reports

Which ads are driving more callers to you? How many calls are YOU losing? How long are people waiting? With our system you will know via email or in real time.

Auto Attendants

Do you have a large facility with catering, party rooms, a full bar? Or perhaps you offer in-office catering? Direct special callers using an auto attendant. Separate urgent callers from those placing orders for next day service.

POS Integration

Need point of sale screen pops or custom integration? No problem. We have a number of options to offer you.

Cellular Internet Backup

Ensure your phones, credit card processing and order flow continue to work even when your primary Internet goes down.

Watchdog® Services

Managed network services can provide real time monitoring of your Internet service and call in tickets to your Internet provider if there is trouble.

Virtual or Onsite Installs Available

Installing your new phone system yourself is as easy as plugging in a few cords. But if you want or need more help, we'll be happy to recommend an experienced team.

SAFEGUARD YOUR PIZZERIA WITH OUR NETWORK IN A BOX

Clarity's proprietary network ensures your communication, POS and payment systems stay connected even if your local Internet goes down.

- ✓ **NEVER** lose Internet.
- ✓ **NEVER** miss a call.
- ✓ **ALWAYS** process credit transactions.
- ✓ **BACK-UP** online ordering.
- ✓ **AUTOMATICALLY** failover to 4G LTE.

We're the **ONLY** cloud phone company that keeps your phone system updated and optimized after the sale.

OPERATE YOUR **PIZZERIA BUSINESS** WITH
THE PHONE SERVICE THAT WILL HELP YOU GROW

PIZZAPHONES® BENEFITS

Designed For Local Pizzerias

Serving over 4,000 users from over 400 pizzerias has taught us a lot about successfully configuring your system to help you **make more sales**. That's why we pioneered PizzaPhones® Network in a Box™ with built-in Caller ID, failover to 4G LTE, and MORE to safeguard your operations.

No Busy Signal - No Lost Revenue

Every call you miss could be a missed sale. With Clarity, **unlimited phone lines** mean your customers will never hear a busy signal.

Start Selling to a Captive Audience

If you're not using your phone to sell products, you're not just missing a sale; you're missing the boat. Clarity's in-ring messaging options can instantly **accelerate average tickets by over 20%**.

Improve Your Customer Service

Monitor your staff's interactions with customers. Coach and train with Listen-In, Whisper, and Join call monitoring functions. **Always know what's happening** with live remote access to any location, call recording and analytics reporting.

Take Advantage of Our Expertise in Your Industry

Who better to help you make more sales than a phone company specializing in **local, regional, and multi-unit pizzerias**? Discover why FranchisePhones® and PizzaPhones® are the most referred brands in North America.
